Objective:

Seeking an opportunity in your esteemed organization for an exciting future and growth.

Professional Qualification:

Completed Bachelor in Computer Science(BCA) ,(2016-2019) from **New Horizon college**,
Bangalore (Affiliated to **Bangalore University -BU**).

Education Qualification	
Linguistic Proficiency	English,Kannada,Telugu, Manageable Hindi
Education	MCA- 78.8% BCA- 64.5% 12 th from STATE board (51%) 10 th from STATE board (54.8%)

Projects	
Project Name	Hospital Management
Environment	PHP and MYSQL
Description	Our project Hospital Management system includes registration of patients, storing their details into the system, and also computerized billing in the pharmacy, and labs. Our software has the facility to give a unique id for every patient and stores the details of every patient and the staff automatically. It includes a search facility to know the current status of each room. User can search availability of a doctor and the details of a patient using the id. The Hospital Management System can be entered using a username and password. It is accessible either by an administrator or receptionist. Only they can add data into the database. The data can be retrieved easily. The interface is very user-friendly.
Project Name	Led distance indicator
Environment	PYTHON

Description	Distance measurement of an object in the path of a person, equipment, or a vehicle, stationary or moving is used in a large number of applications such as robotic movement control, vehicle control, blind mans walking stick, medical applications, etc. Measurement using ultrasonic sensors is one of the cheapest among various options. In this project distance measurement of an obstacle by using ultrasonic sensor and a microcontroller is presented.
