### Personal Details

Date of Birth : 12/10/1998

Marital Status : Single

Nationality : Indian

### Objective

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

### Education

- Shri shiv chhatrapati vidyalaya, 32 shirala . 2014-2015  
SSC  
90.20
- Government Residence Women Polytechnic ,Tasgaon 2017-2018  
Diploma (E&TC)  
83.47
- Annasaheb dange college of engineering and technology, Ashta 2020-2021  
B.Tech(E&Tc)  
75.6

### Projects

- Adaptive front luminous system of four wheeler using arduino**  
The aim of this project is to design a simple and adaptive headlight system of a car which provide better visibility to drive and improve the safety of passengers and oncoming vehicles to avoid human eye effects.
- LPG Gas Leakage Detector**  
In this project gas leak detector circuit that detect the leakage of LPG and alerts the user through audio visual indications.
- IOT Based Home Automation using Online and Offline Mode**  
Now a days, people are getting busy in their day-to-day schedule so, to save time and energy they prefer to the automated things. The motivation of our system is to take care of several home appliances that may normally be hard for those who are literate physically handicapped and old aged people to become self regulation. Home automation is to make homes simpler, better, or more accessible.

### Activities

- Workshop on Antenna Designing at ADCET, Ashta (2019)
