Diploma in instrumentation and control  
9.5
- **GTU**  
2022  
BE in instrumentation and control  
7.45

### SKILLS

- Communication skill, hard worker, leadership

### EXPERIENCE

- **Jyoti CNC automation**  
9-1 -4-4  
Intern

### PROJECTS

- **Pick and place robotic hand**  
Pick and place automation speeds up the process of picking up parts or items and placing them in other locations. Automating this process helps to increase production rates. Pick and place robots handle repetitive tasks while freeing up human workers to focus on more complex work.
- **Automatic light control**  
In this project we use a circuit to operate home appliance from the sitting place at your home.It helps you to turn of the home applications with your cell phone.cellphone works as a remote for your home applications.
- **Get control using secure code**  
This is the one type of a security system.it is used in industry and home to secure personal things.
