Holy Mother English Medium School, Peth Vadgaon, Kolhapur.

Work Experience

Mega Project :

Image Caption Generator(2020-2021)

- Worked on Image Caption Generator using deep neural network models like CCN, LSTM(RNN).
- Image Caption Generator aims to automatically generate a sentence description for an given input image.

Mini Projects :

Event Tracking Portal using Web Technology (2019-2020)

- Worked on Event Tracking Portal using HTML, CSS, Bootstrap, MySQL.
- Build a portal, so that students can get all the information about an event at any time.
- Event Tracking Portal aims to manage events, explained as a web application of project management to create and develop large scale events such as festivals, conferences, competitions, ceremonies, concerts, conventions, and more.

UI/UX Design for Mobile Application Toilets (2019-2020)

- Designed UI/UX for toilets application using a tool called Figma, where you can locate and track the toilets/washrooms nearby you.
- Can add new toilets/washrooms if it doesn't exist and even though you can

give reviews and ratings.

- Link:
<https://www.figma.com/proto/27aKphKvYiBGJqfJfmd99Z/FindWashrooms?scaling=scale-down&node-id=7%3A35>

Android Meme Share Application(2019-2020)

- Worked on Meme Share Application using Android.
- Fetching memes through API and display different memes which can be able to share.
