Industrial Training

Completed 1 month of Industrial training at TECHDATA, Solapur.
Project Topic: Handling Company Data.We done the project using-
- SQL
- Infomatica
- Pentaho

Project Handled

I.   **Title:** Automatic Door Open &Close System
Duration: 1 year
Summary: In this project we use different modules such as atmega328, PIR sensor, L298N, CD driver. This project is based on PIR sensor. In this project we detects the motion of the motion of the human by using PIR sensor which can be used to detect obstacle &is one of the real time application.

II.   Title: Advanced security system for ATM with SMS indication.

Duration: 1 year

Summary: When thief touch the cash box of ATM machine the touch sensor will activate and it will generate a signal which is input of controller then controller will activate the buzzer & send message to the police station through GSM.

III.   Title: Touch Screen Based Food Ordering System

Duration 1year

Summary: This system is using mobile application to take orders. The customer's orders will be sent to the kitchen through the mobile device. The waiters don't have to go to the kitchen or bar department to give the order because the order lists will be display to the department's screen. The transaction between the waiter and the restaurant departments and also between waiter and the cashier will be systematic.
